Dear Gymkhana Association,

On behalf of the Board of Directors and the clients of the Parkland Food Bank, we are grateful that you have chosen the Parkland Food Bank as the recipient of your charitable donation.

Hunger is a barrier for all dimensions of human development; literacy, productivity, fitness, child welfare, health, and social stability. When a household lacks the ability to pay for all monthly expenses, the amount of money available for food purchases may be compromised in both quality and quantity resulting in food insecure households. The Parkland Food Bank helps reduce the impact of food insecurity by providing food assistance to those people in our community with a proven need.

With such strong support such as we have received from you, we are able to accomplish so much in addressing the needs of hunger in our community.

We are grateful to have your support for the Parkland food bank.

Thank You

Angela Fawn Lindberg

Executive Director
