Stony Plain, AB T7Z 1X4

Dear Edmonton Gymkhana Association,

Tennille's Hope has seen an increase in the number of people utilizing our services this past year and we are anticipating that that number will continue to increase in the coming months as people struggle to find jobs during this recession.

With that said, we have also been able to make a few necessary upgrades, we have purchased an industrial stainless steel stand up freezer, a stainless steel overhead hanging rack and an industrial gas stove for our kitchen just to name a few, all of which was made possible through our supporters and the fundraising efforts of our volunteers.

Our organization continues to be maintained by volunteers and is 100% donor operated. We are a soup kitchen that serves between 175 - 200 free meals per week to our guests.

Our guests are persons with varying challenges such as fixed income earners, the working poor, single parents, seniors, the homeless and more recently people who have lost their jobs due to the drop in oil prices.

We are very grateful for generous donors like yourselves for without your support, this organization would cease to exist.

On behalf of the Board of Directors and the dedicated volunteers of Tennille's Hope, I would like to thank you for your commitment this past year and we look forward to your continued support in the year ahead.

Sincerely,

Wanda Belbin
Senior Treasurer
